Brazilian, resident in Lisbon, I am a software developer with over 10 years of experience in creating commercial software. Developing software is my daily work and also my passion. I love working with complex systems and, together with the team, propose solutions and solve problems.

My main focus is on backend development with strong experience with Java and frameworks, such as Spring boot. Bachelor of Computer Science from the Catholic University of Pernambuco, I work with Java technology since its version 5. I am also **Java Certified by Oracle** (OCJP 1Z0-851), **Spring Certified Professional** (2V0-72.22) and **Certified Kubernetes Application Developer** (CKAD). My professional goal is to continue growing as a developer, mastering new technologies and methodologies, and contributing to innovative and challenging projects.

Skills

- Java**,** Spring Framework & Spring-boot
- Containers, Docker, Kubernetes
- RESTful APIs
- Public cloud computing
- CI/CD pipelines
- Databases
- DevOps principles

- Teamwork
- Adaptability
- Time management
- Problem-solving
- Organization
- Work ethic
- Critical thinking
